Maybe we’re a bit biased, but we love that we can get up close and personal with so many animals at Disney’s Animal Kingdom® Theme Park! Over the last few years, there have been major changes afoot to transform this exotic, jungle-like park that celebrates life and nature into a full day- and night-time destination. With the arrival of the land Pandora – The World of Avatar, the show Rivers of Light: We Are One and other nighttime experiences, Disney has done just that! Of course, more great rides and experiences mean more visitors.

Much like Magic Kingdom® Park, Disney’s Animal Kingdom® Theme Park is set up in a spoke and hub formation, with the majestic Tree of Life® Attraction at the center.

With just a tadbit of planning, it’s possible to experience the best of Disney’s Animal Kingdom® Theme Park in one day, with time to explore the animal exhibits, amazingly themed shops and restaurants — with Asian, African and American flavors.
